

Nondestructive Testing Handbook Second Edition

Volume Ten Nondestructive Testing Overview

American Society for Nondestructive Testing

Volume 10: Nondestructive Testing Overview

Technical editors: **Stanley Ness**
Mission Viejo, California

Charles N. Sherlock
Conroe, Texas

Metric consultants: **Stanislav I. Jakuba**
SI Jakub
West Hartford, New Jersey

Holger Streckert
General Atomics
Rancho Sante Fe, California

Editors: **Patrick O. Moore and Paul McIntire**
American Society for Nondestructive Testing
Columbus, Ohio

Published: September 1996

Pages: 592

Points of interest: In the absence of a single method committee in ASNT's Technical Council, review was overseen by the Handbook Development Committee.
The volume is based on second edition materials but includes new information on computed tomography and on storage tanks.
