

# COPYRIGHT TRANSFER

Rev5-04.20

Date: \_\_\_\_\_

This signed statement must be returned to ASNT at the time of submission to the journal, proceedings, book, or other publication in which the Work will be published. The intent of this agreement is to protect the interests of both ASNT and the copyright owners (authors or employers) and to specify reasonable rights for both parties related to publication and reuse of the material.

Title of Work: \_\_\_\_\_

Author(s): \_\_\_\_\_

Contact Author Email: \_\_\_\_\_

The undersigned hereby assign(s) to American Society for Nondestructive Testing (ASNT) copyright ownership in the Work, effective if and when the Work is accepted for publication by ASNT and to the extent transferable under applicable national law. This assignment gives ASNT the right to register copyright to the Work in its name as claimant and to publish the Work in any print or electronic medium.

The copyright ownership in the Work is hereby assigned and transferred by \_\_\_\_\_ (“owner”)

to ASNT effective if and when the Work is accepted for publication. This copyright transfer is understood as including not only the text, but any integral part of the Work, including but not limited to figures and tables. Furthermore, this assignment and transfer applies to all other publications, reproductions, and/or translations by ASNT or its licensees, in which the above Work may be reproduced subsequent to its appearance in ASNT publications.

ASNT reserves the right to edit this Work. However, ASNT acknowledges that the following rights are not transferred hereunder:

1. Any proprietary rights (such as patent rights) other than copyright.
2. The right to prepare derivative publications based on this Work, including books or book chapters, journal papers, and magazine articles, provided that publication of a derivative work occurs subsequent to the official date of publication by ASNT.
3. The right to make oral presentation of the same material.
4. The right to grant or refuse permission to other parties to republish all or part of this Work or translations thereof. Such third parties must obtain ASNT’s written permission as well.
5. The right to use all or part of this Work in future works of author in author’s capacity as either author or editor, without charge, provided ASNT is properly credited as the source.

The owner represents and warrants that, to the best of his/her knowledge, the Work does not contain material the publication of which would violate any copyright, trademark, intellectual property rights, or other personal or proprietary rights of any private person or entity or governmental or quasi-governmental entity. The owner further affirms that written permission has been secured by any person depicted in any photograph submitted for publication. *Caveat: the owner is specifically reminded and cautioned that NDT processes, procedures, techniques, etc., may be the subject of US government classification regulations; the unauthorized publication thereof may expose the author and/or owner to prosecution under applicable federal law. Therefore, the owner must carefully verify sources of data other than those originated by the author.* In addition, the owner warrants that the Work, including individual figures and/or photographs, has not been published previously elsewhere.

Upon publication, one electronic copy (PDF) is provided for the author’s personal use only. Systematic reproduction and distribution (including uploading to open access repositories); duplication of any material in this paper for a fee or for commercial purposes; or modification of the content of the paper are prohibited.

Authors, or their employers in the case of works made for hire, retain the following digital permissions:

1. The right to make and distribute copies of the paper for internal purposes.
2. The right to use the material for lecture or classroom purposes.
3. The right to post a PDF of the ASNT-published version of their work via a restricted-access internal website (e.g., intranet or non-publicly accessible LAN/WAN) available only to members of your company or organization. The following statement must appear with the Work: “This material may be downloaded for personal use only. Any other use requires prior permission of the American Society for Nondestructive Testing.”

*Owners of U.S. government-funded works only – Please check the appropriate box and sign below.*

- This is a Work of the federal government and is not subject to copyright.
- This is a Work for hire. The federal government retains the nonexclusive right to reproduce this work.
