September Recap:

Thanks to everyone who made it out to our return meeting.

*We had a great attendance at 20 people in total.* We were very glad to see so many faces return from the summer break. Randy Jones gave a great presentation on Eddy Current of composite materials.

For the October 20th 2016 meeting:

George Hopman of NDE Solutions Inc will be presenting his fall conference paper:

*Passing the Torch to the Next Generation of MT-PT Inspectors.*

George Hopman has been an ASNT Level III since 1983 and received the ASNT Mentoring award in 2014. Thanks to your votes! George is a consultant, providing NDT classes, certification and Level 3 support to a multitude of clients.

Location: Rodehouse Restaurant, 2425 S 24th St, Phoenix, AZ 85034.

Social Hour Starts at 5:00pm

ASNT will be continuing FREE DINNER,

October 20th

Thank you to our sponsors who help make that happen.

NATIONAL RETAINED SEARCH
AEROSPACE MANUFACTURING ---- NEW ENGLAND
TEAM LEADER - NON-DESTRUCTIVE TEST ENGINEERING

Our client is a rapidly-growing, $200M+ million business unit of a $1 billion NYSE-traded global manufacturer. Our client engineers and builds components and assemblies for many of the world’s most respected players in the aerospace and other sophisticated, high-technology markets. Our client has created this position to support the acquisition, validation, and entry into production of state-of-the-art CT scanning equipment, to lead a team of high-performance NDT Technicians, and to implement world-class NDT operational, quality, and safety processes.

AS OUR CLIENT’S NEW NDT TEAM LEADER, YOU WILL:
- Lead a team of skilled NDT Engineers within a sophisticated applied technology environment.
- Work with Quality and Product Development Engineering to achieve System Conformity Qualification and Product/Process Performance Validation on our client’s equipment.
- Set up, calibrate and operate advanced DR/CT systems in compliance with sophisticated work instructions, complex engineering drawings, stringent product and materials specifications, and world class quality and safety standards.
- Serve on cross-functional Engineering teams and work with our client’s suppliers and customers to develop and deploy CT testing methodologies that support rapid new product and process development while improving product quality and compliance with all relevant regulatory body requirements.
