Welcome...Thanks to all of you for being part of our ASNT Section, we’re off to a good start to another exciting year with our ASNT friends. We greatly appreciate your membership in our Arizona Section, and for being an important part of the ASNT family!

“We look forward to seeing everyone at the February 16th meeting!”

Our Guest speaker is Mr. Michael Beaver of Futureweld

General Manager/SCA of FutureWeld. FutureWeld is uniquely qualified to serve your special processing needs as Arizona’s only independent special processing service provider that is Nadcap accredited to offer each of Chemical Processing, Non-Destructive Testing and Weld services.

Three time FAA Diamond Award and inventor of TriPlex and Metal Nucleation. Michael relocated to the valley over 33 years ago, and has enjoyed working in the NDE aerospace field and describes it as, “One of the most exciting professions I’ve ever chosen”.

Mr. Beavers Presentation is titled Pre-Penetrant Etch

MAGNAFLUX, a division of ITW has 80+ years of experience as a global manufacturer of magnetic particle and liquid penetration inspection. Considered virtually a one stop shop for MPI and LPI equipment, associated materials and accessory products used for non-destructive testing.

Magnaflux other lines include aqueous cleaners certified for aerospace and general industrial cleaning, along with a complete line of ultrasonic couplants.

Visit our website at [www.magnaflux.com](http://www.magnaflux.com) or call Magnaflux Customer Service at 847-657-5300 or email cs@magnaflux.com.
Since 1998, AMS has been committed to providing accurate, proactive material evaluation, cleaning and finishing of safety critical parts for the automotive industry. We conduct high speed, high throughput inspections of components using ultrasonic testing (UT), acoustic resonance testing (AT), and eddy current testing (ET). We work closely with client partners to determine which NDT method or combination of methods will deliver the ideal solution for 100% containment of potential defects at best overall value.

We can combine non-destructive testing with cleaning and packaging to ensure only 100% conforming materials arrive at your plant sorted, cleaned and packed ready for production. So whatever your challenges speak with us to develop a solution that is efficient, affordable and effective.
